

ALAMO RECOVERY:

1. Contact Nellis Control on local Channel 7
2. Cross ALAMO at assigned ATC altitude (FL200/FL210) heading 165° direct HAYFORD PK

DAYTIME:

1. Proceed direct GASS PK (RWY 03)/APEX (RWY 21)
2. Expect descent as assigned by ATC and clearance to join MINTT/ARCOE Recovery
3. Comply with remaining altitude restriction for MINTT/ARCOE VFR recoveries

NIGHTTIME: Expect radar vectors for instrument/visual approach after HAYFORD PK

NOTE: NATCF may assign below FL190/above FL210 if airspace allows in ALAMO Corridor
